This is a high-tech instrument. Do not store it in an area subject to extreme hot or cold temperatures. Never drop it, bump it or attempt to take it apart.

HOW TO PLAY

Select 1 or 2 players.
Choose your exterminator.
Use the select button to choose the character you wish. Press start to select the character you have chosen.
Note: When playing a 2-player game, the same character will be cloned for each player, player 1 and player 2 will have different color uniforms.

Via Transfer Disc, the Home Ship will automatically beam you aboard the first derelict space station. As soon as the particles of your character are fully reassembled, you can go about your mission.

Your main objective is to destroy as many Xenos as fast as possible before the space station self destructs. If you clear a sufficient

amount of Xenos in time, the space station will be declared "cleared of Xenos" and a bonus will be awarded. If you fail to clear out the Xenos, then the space station will be declared "overrun by Xenos" and no special bonus will be awarded.

Split screen play: In a 2-player game, each player may independently explore different parts of the various space stations.

Health: Player is awarded 1000 Health units at the beginning of each game. When all Health is gone, the game is over. As you, the player, are injured by attacking Xenos, your Health will decrease. When game is over, you must start a new game. There is no way to continue.

There are two ways to regain Health. One is by picking up special objects, the other is by successfully clearing a space station of Xenos. The award for clearing a space station of Xenos is 200 Health units.

Space stations: There are 8 space stations in all; each station has 8 rooms per floor.
